

About ECOZEN

Since 2004, Ecozen has been crafting stylish, functional tableware from naturally shed palm leaves — 100% biodegradable, eco-friendly, and designed to reduce plastic waste.

ECOZEN Palm Leaf Plates

Naturally Elegant. Effortlessly Sustainable.

Since 2004, Ecozen has been on a mission to replace harmful single-use plastics and paper products with something better — 100% natural palm leaf plates that are as beautiful as they are biodegradable.

Crafted from naturally fallen palm leaves, our plates are made without cutting trees or using chemicals. Each leaf is carefully cleaned, soaked, and heat-pressed into elegant shapes using custom molds. The result? Strong, stylish, and eco-friendly plates perfect for any occasion.

Good for You. Great for the Planet.

After use, Ecozen plates return to nature. When composted, they break down into nutrient-rich manure, enriching the soil and helping new plants grow.
